Summary

Ever since the first "Hello World" in the console, it was clear that Web Development is greater than just a hobby.

Now passionate Junior Full-Stack Web Developer with an urge to solve problems and create efficient solutions in the least amount of time. Developed a dating app for elderly, a weather app and an e-commerce backend application, graduated with the best possible mark from the Coding Bootcamp and now seeking to add on to the strong technical skills gained during the bootcamp. Strong team player, with great communication skills, ready to provide innovative ideas, and a great work ethic.
